

Air Conditioning & Heating

GPC15M PACKAGED AIR CONDITIONER UP TO 15 SEER PERFORMANCE

QUALITY MANUFACTURED
AIR CONDITIONING IN
A COMPACT, ALL-IN-ONE,
SPACE-SAVING UNIT DESIGNED
FOR YEAR-ROUND COMFORT.

** To receive the 10-year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.goodmannmfg.com.*

Thank goodness for Goodman.™

Goodman®

Air Conditioning & Heating

A COMPACT COOLING MACHINE COUPLED WITH A SMALL FOOTPRINT.

KEEP YOUR FAMILY IN MONEY-SAVING, EFFICIENT INDOOR COMFORT FOR YEARS AND YEARS TO COME.

A Goodman® brand GPC15M Packaged Air Conditioner provides value and cutting-edge technology to homeowners and small businesses while helping to lower energy bills as compared to lower SEER units. Plus, our extensive product offering ensures that you get the right system for your specific cooling needs.

Goodman Packaged Units sit on the ground or rooftop outside your home or business and deliver dependable, quiet, year-round cooling comfort from a single, self-contained unit. All units come fully charged with refrigerant and are fully tested – direct from the factory.

ENERGY EFFICIENCY SAVES MONEY AND IMPROVES COOLING COMFORT

Energy efficiency is the key to controlling the cost and comfort of cooling your home or business. Today's minimum efficiency standard as directed by the federal government is 13 SEER

(Seasonal Energy Efficiency Ratio). Older installed units in many homes and business may have actual operational efficiencies of 6 SEER or less. Not only does replacing your old unit provide the potential for increased efficiency performance, but you will gain peace of mind knowing that the Goodman folks build the GPC15M Packaged Air Conditioner unit with up to 15 SEER performance, providing years of reliable comfort and quiet operation.

When properly installed, your new Goodman brand GPC15M Packaged Air Conditioner offers efficiencies that provide significant savings compared to lower SEER units. In fact, these units are so efficient that they meet the higher standard of the Environmental Protection Agency's Energy Star Program!**

**Energy Star ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the Energy Star designation get complete information at www.energystar.gov.

***Unmatched combination of performance, efficiency and affordability.
That's just what you'll get with the Goodman brand.***

QUALITY MANUFACTURING BACKED BY EXCEPTIONAL WARRANTIES*

RELIABILITY AND LONG LIFE

One of the most critical components of a packaged air conditioner is the compressor. That's why the Goodman brand GPC15M Packaged Air Conditioner boast high-performance, high-efficiency compressors, which operate in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area allowing for an optimal heat transfer process. While this metal combination does cost a bit more to manufacture, we believe that compared to lower SEER units, this is the best performance to keep your home or business comfortably cool for many, many years.

SOLID WARRANTY PROTECTION*

All Goodman brand GPC15M Packaged Air Conditioner units have a **10-Year Parts Limited Warranty*** that covers the compressor and all functional parts.

We can provide optimal warranty coverage on our products because we take the time to make certain that our engineering and manufacturing processes result in the production of an outstanding product. We know that you expect the best performance from your new packaged unit, and we do our best to deliver it to you.

For even greater peace of mind, ask your dealer or visit our web site at www.goodmanmfg.com for more details about **GoodCare**,[†] an affordable Parts and Labor Extended Service Plan for your entire Goodman brand HVAC system.[†]

R-410A REFRIGERANT

Compared to lower SEER, R-22 refrigerant units, your new Goodman GPC15M Packaged Air Conditioner will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. Since this refrigerant does not contain chlorine, it is environmentally-friendlier than R-22 refrigerant, which is currently used in most air conditioning systems.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN® BRAND GPC15M PACKAGED AIR CONDITIONER

- 10-Year Parts Limited Warranty*
- Energy-efficient compressor with internal relief valve
- Totally enclosed, permanently lubricated condenser fan motor
- Fully insulated blower compartment for quiet operation
- Chlorine-free R-410A refrigerant
- Louvered condenser coil protection
- Quality powder-paint finish resists fading and corrosion

† Extended Service Plans not available in all states. Ask your dealer for full details.

GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman brand heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was, and our goal remains, to manufacture air conditioning and heating equipment that performs more reliably, lasts longer than the competing products and eliminates time-consuming installation problems.

And, of course, he endeavored to make air conditioning and heating products as affordable as possible. Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities.

Our continuing commitment to quality products may mean a change in specifications without notice.
