Home Comfort Controls

THE DAVE LENNOX SIGNATURE™ COLLECTION SIGNATURESTAT™ OFFERS INCREASED COMFORT AND CONVENIENCE.

LENNOX MAKES YOUR HOME...A BETTER PLACE™.

In 1895, Dave Lennox single-handedly elevated the standard of American living by pioneering the world's first steel, coal-fired furnace. Today, the Lennox spirit of innovation continues with the Dave Lennox Signature™ Collection. Dave Lennox Signature Collection heating and cooling controls allow you to customize comfort, room by room, all year 'round. They make your home more comfortable, more livable...

SignatureStat™ Home Comfort Control offers precision humidity and temperature control

When it comes to comfort, temperature and humidity control are important factors. Now, with the new Lennox SignatureStat™ Home Comfort Control you can regulate both with a single, easy-to-use device. The SignatureStat Home Comfort Control works with advanced heating and cooling systems and humidifiers to cool, heat, add or remove humidity to within one degree of set point. For maximum effectiveness, pair the SignatureStat Home Comfort Control with a variable speed furnace and/or two-stage air conditioner or heat pump.

A better balance of humidity

SignatureStat Home Comfort Control allows you to adjust the relative humidity in your home according to your specific comfort needs—all year 'round. It responds to changes inside and outside to maintain desired humidity levels. Proper humidity levels not only increase comfort, but they also help protect wood furnishings and prevent condensation on windows and walls.

Moisture Control

SignatureStat™

Removes up to 75 gallons per day

A Better Place™.

How it works

SignatureStat Home Comfort Control works with your heating and cooling systems, as well as your humidifier. During the winter, when low humidity can be a problem, it works in place of a humidistat to control your humidifier. On the coldest days, it can even adjust the relative humidity downward to help maintain comfort, but also help prevent frosting and condensation on windows.

During summer months, when humid nights can make even air-conditioned homes uncomfortable, the SignatureStat Home Comfort Control adjusts the performance of your central air conditioner for maximum dehumidification. It also gives you the option of running the air conditioner for the sole purpose of removing humidity from your home.

SIGNATURESTAT™ HOME COMFORT CONTROL PROVIDES SIMPLE, ONE-POINT CONTROL FOR YOUR INDIVIDUAL HOME COMFORT.

A higher level of convenience and flexibility

With the *SignatureStat™* Home Comfort Control, you have the flexibility to fine-tune your comfort with a simple touch. Designed for total comfort and convenience, *SignatureStat* Home Comfort Control can be programmed for different temperature and humidity settings at different times, every day of the week. It will automatically switch between heating and cooling, depending upon the demand.

Feature	How It Works
Large, Easy-To-Read Dot Matrix Screen	Displays time, room temperatures and humidity levels.
Menu Buttons	Allow you to quickly advance through feature options.
Backlit Display	The large, easy-to-read panel illuminates with a touch of a button for easy viewing, day or night.
System Status Icons	Show when your system is running.
Fan Control	Allows you to select continuous, automatic or intermittent operation.
Auto Changeover	Automatically alternates between heating and cooling during changing weather for enhanced comfort and efficiency.
Smooth Temperature Transition	Gradually changes room temperature to next program period for increased comfort.
Programming	Allows you to easily set, customize, review or change your typical week's schedule, two, four or six times per day to save energy and money.
Permanent Program Memory	Maintains program in the event of a power loss, indefinitely. No battery required.
Copy Feature	Saves programming steps by automatically copying programs to other days of the week.
Hold Feature	Lets you temporarily change the temperature, without changing the programs using permanent, temporary or vacation time frames.
Indoor Air Quality Monitor	Provides useful reminder for proper maintenance of indoor air quality products for improved comfort.
Service Monitor*	Indicates when your cooling system is not operating properly.
Security Feature	Prevents unauthorized tampering of programs and settings.
Dual-Fuel Capability**	Increases the efficiency of dual-fuel systems by automatically alternating between gas and electric operation.
Constant Power Supply	Hard-wired to furnace power supply. No changing of alkaline batteries.
Outdoor Sensor	Allows for easy viewing of outdoor temperature.
Condensation Prevention	Automatically adjusts indoor humidity based on outdoor temperature, reducing condensation on windows.

*Heat pump models only.

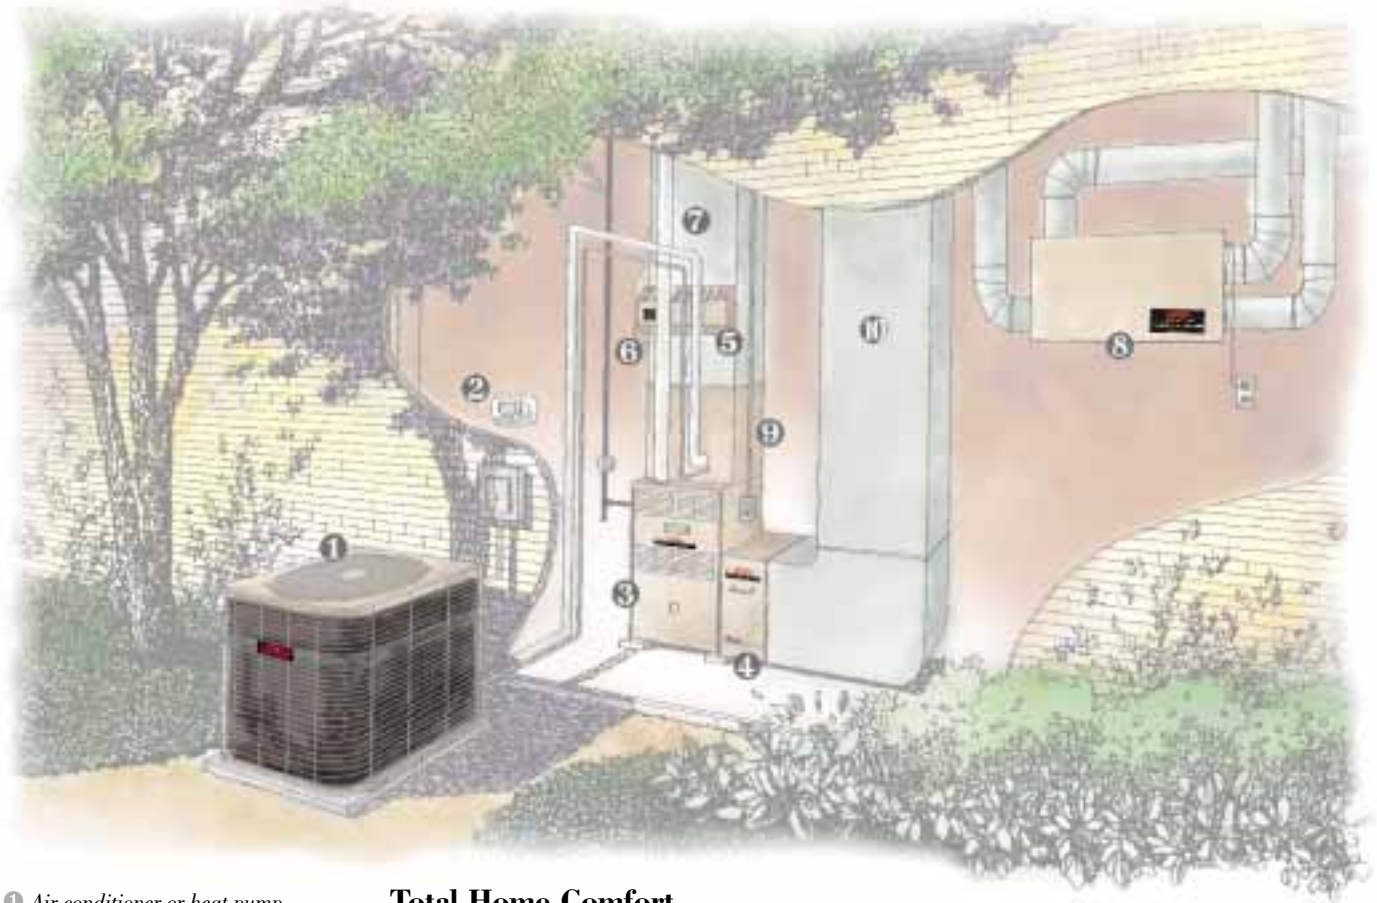

** A dual-fuel system combines a heat pump and a furnace.

Lennox is proud to display the ENERGYSTAR® logo for this product, which means it meets the Environmental Protection Agency's (EPA) standards by using less energy, which reduces pollution.

We build to the highest standards. We stand behind our warranties.

The *Signature™* Collection *SignatureStat™* Home Comfort Control is backed by a 2-year limited warranty.
